WELCOME

Congratulations!

Dear **Demo**,

Congratulations on choosing a Dermatoglyphics Multiple Intelligence analysis. Every person is born with unique talents. When we understand them early, we can choose the right learning style, activities and career instead of guessing.

This report maps your fingerprints to your inborn intelligences, personality, learning style, quotients and career interests. Each page explains one part of you, and the last pages turn it into an action plan.

Our counsellors will walk you through every page and answer your questions.

Best wishes!

HOW TO READ THIS REPORT

- Percentages compare your own intelligences with each other; they always add up to 100%.
- Nothing here is a score out of 100 or a pass / fail.

GUIDE

Disclaimer & how to read

DISCLAIMER

The information in this analysis belongs to its owner (for a minor, the parent or guardian). It indicates inborn tendencies and supports, but does not replace, the judgement of the client, parents and qualified professionals. Decisions taken on its basis remain the client's own. Fingerprints are used only to prepare this report.

READING THE NUMBERS

- **Intelligence %**: your share in each area; all ten add up to 100%. The average is 10%.
- **Stars**: career fit from 1★ to 5★.
- **Ranks**: Highest, High, Low, Lowest compare four items with each other.
- **Lowest value**: no area is ever shown as 0%; every potential can be developed.

LEVELS USED IN THIS REPORT

High ≥ 12% | Average 8–12% | Developing < 8%

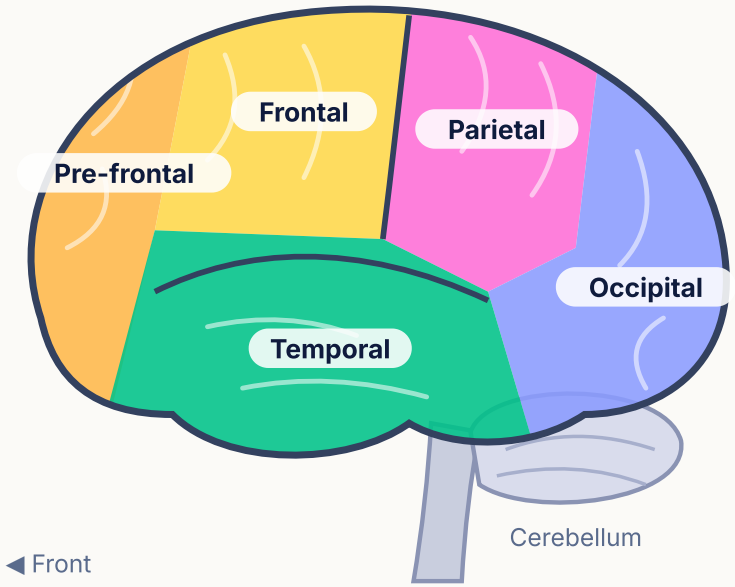
Dermatoglyphics is the study of the ridge patterns of the fingers and palms. Fingerprints form between the 13th and 21st weeks of pregnancy, the same period in which the brain develops.

BRAIN

Brain lobes & their functions



Pre-frontal

Behaviour · Personality · Decision making · Interpersonal · Intuition · Goal setting · Planning · Self-evaluation

Frontal

Problem solving · Calculation · Reasoning · Logical thinking · Analysis · Imagination · Emotion control · Idea formation

Parietal

Sensation · Touch · Fine motor skills · Body movement · Drawing · Eye-hand coordination · Left-right sense

Occipital

Visualisation · Colours · Visual memory · Reading · Writing · Idea formation

Temporal

Faces · Concentration · Attention · Short-term memory · Long-term memory · Sound

Fingers & lobes

Thumbs · Pre-frontal
Index · Frontal
Middle · Parietal
Ring · Temporal
Little · Occipital

MAPPING

Fingerprints & brain relations

Each finger is linked with one area of the brain. The left hand reflects the right brain and the right hand reflects the left brain.

LEFT HAND · RIGHT BRAIN

L1 Left thumb	Leadership · goal visualisation
L2 Left index	Imagination · idea formation
L3 Left middle	Gross motor · body movement
L4 Left ring	Music · rhythm · emotions
L5 Left little	Visual art · appreciation

RIGHT HAND · LEFT BRAIN

R1 Right thumb	Planning · self-control
R2 Right index	Logic · reasoning · numbers
R3 Right middle	Fine motor · hand skills
R4 Right ring	Language · listening
R5 Right little	Observation · nature

DID YOU KNOW?

Fingerprint ridges start forming around the 13th week of pregnancy and never change afterwards, which is why they are used to study inborn potential.

Right 46% · creativity

BEST-FIT STREAM

Commerce

36.2% fit · top career area: Human Services

IN ONE LINE

Give Demo a steady routine and supportive people, and Demo will thrive.

BEHAVIOUR

What is DISC?

DISC is a behaviour model based on the work of psychologist William Moulton Marston (1928). It describes four styles, often shown as four birds:

DOMINANT

EAGLE

Goal-oriented, decisive and independent. Takes charge and drives results.

INFLUENTIAL

PEACOCK

Enthusiastic and expressive. Energises people and loves recognition.

STEADY

DOVE

Calm, loyal and supportive. A team player who values harmony.

COMPLIANT

OWL

Careful, analytical and precise. Prefers accuracy and clear rules.

Your primary style comes from your left-thumb pattern and your secondary style from your right-thumb pattern.

WHY IT MATTERS

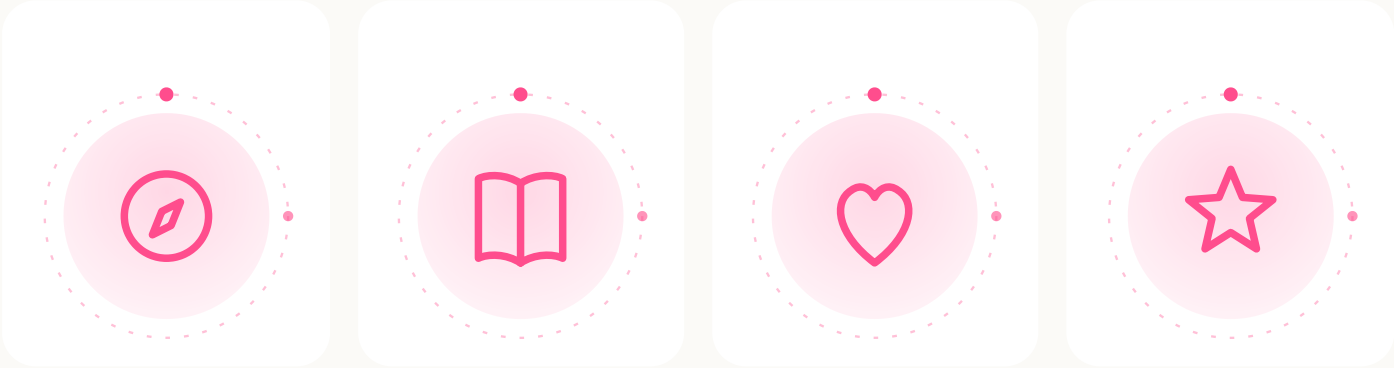
- Parents and teachers can communicate in the way you understand best.
- You can choose study methods and teams that suit your style.
- Knowing your style under pressure helps you manage stress and conflict.

PERSONALITY

Demo is *steady* by nature

Idealists

Intuitive (N) and Feeling (F) types, known for empathy, ideals and inspiring others.



Guide	Dreamer	Mentor	Spark
INFJ	INFP	ENFJ	ENFP

DISC style · Dove — **Steady**

Calm, loyal and supportive. A team player who values harmony.

Secondary style — **Dominant**

YOUR KEY STRENGTHS

People's People · Excellent Team Player · Flexible · Relationship Oriented · (Leadership Style)

PERSONALITY

Demo's *second side*

Your secondary style shows how you tend to behave under pressure or in a new situation. It comes from your right-thumb pattern (W1).

DOMINANT

EAGLE · RATIONALS

Goal-oriented, decisive and independent. Takes charge and drives results.

PRIMARY

Steady

Everyday style

SECONDARY

Dominant

Style under pressure

TOGETHER

You usually act as Steady, and switch towards Dominant when under pressure.

UNDER PRESSURE, WHAT HELPS

- Set weekly targets and let them track progress
- Use competitions and timed challenges
- Explain the result first, then the method

SWOT

Demo's strengths *and blind spots*

STEADY

STRENGTH

- People's People
- Excellent Team Player
- Flexible
- Relationship Oriented
- (Leadership Style)

WEAKNESS

- Emotional
- Avoid Change
- Lack of aim
- Considering too much

OPPORTUNITY

- Can build team
- Supportive
- Can handle situation
- Can bring and bind people together

THREAT

- Lack of management
- Think from heart
- Unable to Foresee

Strengths and weaknesses come from within; opportunities and threats come from the environment around you.

TURN WEAKNESSES INTO STRENGTHS

- **Emotional:** notice when it happens, pause, and ask a trusted person for feedback.
- **Avoid Change:** notice when it happens, pause, and ask a trusted person for feedback.
- **Lack of aim:** notice when it happens, pause, and ask a trusted person for feedback.

PERSONALITY

Bringing out *Demo's best*

AT HOME & STUDY

- Keep a predictable daily routine
- Study with a trusted partner
- Prepare for changes (new school, new class) in advance

AT SCHOOL & WORK

- Give a stable, friendly environment
- Explain changes early and calmly
- Value their teamwork and loyalty
- Encourage them to share opinions

MOTIVATED BY

Security, appreciation, harmony

STRESSED BY

Sudden change, conflict

COMMUNICATING WITH A STEADY PERSON

Be patient, sincere and explain changes calmly.

LEARNING STYLE

Demo learns best *by listening.*

You remember what you hear. You recall names easily, like to read aloud and repeat instructions, and learn well through lectures, discussions and recordings. Noise distracts you, so a quiet place helps.

Auditory — Learning by listening — 43%

Visual — Learning by seeing — 31%

Kinesthetic — Learning by doing — 26%

AT HOME

- Attend classes, discussions and tutorials
- Find a note-taking study partner
- Put facts into a song, rap or rhythm

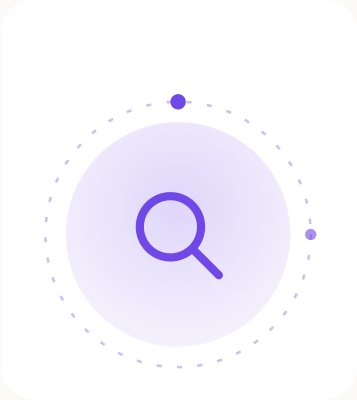
IN CLASS & EXAMS

- Imagine talking with the examiner
- Listen to your voice and write the answers
- Recall ideas in a quiet place

Counsellor note · ask how revision happens today. Listening learners often study silently because they were told to; switching to "say it aloud" usually helps within weeks.

GUIDELINES

For visual learners



You remember what you see. You recognise words by how they look, remember faces more than names, and learn best from pictures, diagrams, charts and demonstrations. Noise rarely distracts you, but movement does.

STUDY TIPS

- Use bright coloured folders and eye-catching notebooks
- Highlight and colour-code information
- Turn words into outlines, symbols, pictures and diagrams
- Make flash cards; organise material into tables and charts
- Read notes until you can 'see' the page
- Reduce auditory clutter while studying

EXAM TIPS

- Turn your visuals back into words
- Write out sample exam answers
- Redraw notes from memory
- Put diagrams where you will see them often

BEST TEST TYPES

- Diagramming
- Reading maps
- Essays planned from an outline
- Showing a process

PRECAUTION

Avoid oral, listening-only tests where possible

YOUR SHARE: 31.1%

GUIDELINES

For auditory learners

You remember what you hear. You recall names easily, like to read aloud and repeat instructions, and learn well through lectures, discussions and recordings. Noise distracts you, so a quiet place helps.

STUDY TIPS

- Attend classes, discussions and tutorials
- Find a note-taking study partner
- Put facts into a song, rap or rhythm
- Record lessons and your notes; replay them
- Read aloud; repeat facts with eyes closed
- Join a study group

EXAM TIPS

- Imagine talking with the examiner
- Listen to your voice and write the answers
- Recall ideas in a quiet place
- Speak answers aloud in your head

BEST TEST TYPES

- Oral exams
- Viva and presentations

PRECAUTION

Practise timed reading-and-writing tests

THIS IS YOUR STRONGEST STYLE

GUIDELINES

For kinesthetic learners

You remember what you do. You learn through hands-on activity, movement, experiments and real examples. Sitting still for long is hard; short active sessions work best.

STUDY TIPS

- Use a practical, doing approach
- Study in short blocks, not long stretches
- Use role plays, flash cards and models
- Walk while studying; hold the book while reading
- Sit where you can get up and move
- Illustrate ideas with maps and diagrams

EXAM TIPS

- Copy key points onto a whiteboard
- Organise information into charts
- Practise writing answers to old papers

BEST TEST TYPES

- Multiple choice
- Fill in the blanks
- Short definitions

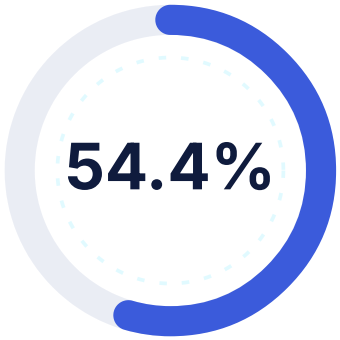
PRECAUTION

Practise long tests and essays in timed stages

YOUR SHARE: 26.0%

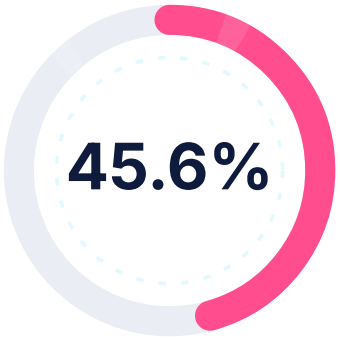
HEMISPHERES

Demo's brain leans *left*



LEFT BRAIN

- Analytical & logical
- Academic performance
- Convergent thinking
- Concentration
- Planning & organising
- Controls feelings



RIGHT BRAIN

- Creative & emotional
- Activities & sports
- Divergent thinking
- Creativity
- Understanding others
- Full of feelings

Your left brain leads: logic, language and planning come naturally. A balance between the two is ideal.

LEFT BRAIN · RIGHT HAND

Intrapersonal	13.0%
Logical	10.5%
Fine motor	7.6%
Linguistic	13.5%
Naturalist	9.8%

RIGHT BRAIN · LEFT HAND

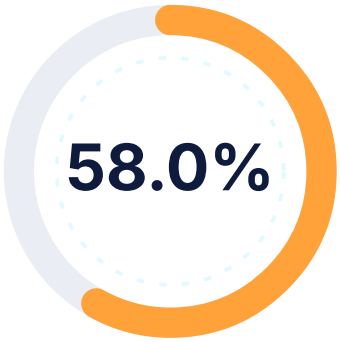
Visual	8.8%

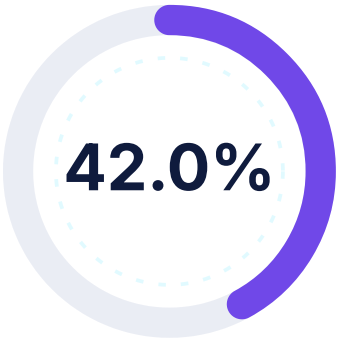
CAPABILITY

Psychological capability



DOING

Object-driven model



PLANNING

Concept-driven model

DOING · TRAITS

- Risk taker
- Goal oriented
- Bold & confident
- Highly determined

REMEDIES

- Help them set goals
- Show the benefit of planning

PLANNING · TRAITS

- Highly imaginative
- Good managerial skills
- Logical, analytical & cautious
- Thinks first, then acts

REMEDIES

- Help them execute
- Write plans down

EXECUTOR VS THINKER

ACQUIRING

How you acquire knowledge

SELF-COGNITIVE METHOD

39.6% High

Whorl patterns

- Independent and goal oriented
- Target-centric self-starter
- Confident, may be stubborn

AFFECTIVE METHOD

49.5% Highest

Ulnar loop patterns

- Imitation learner
- High learning ability
- Flexible and people oriented

REVERSE METHOD

9.9% Low

Radial loop patterns

- Creative, thinks out of the box
- Likes doing new and different things
- Dislikes traditional methods

REFLECTIVE METHOD

1.0% Lowest

Arch patterns

- Highly flexible with unlimited potential
- Conservative, may be talkative
- Friendly and people oriented

HOW TO TEACH YOU · AFFECTIVE METHOD

Teach through role models and examples; encourage often and keep a warm, supportive tone.

THEORY

Multiple intelligences

Dr. Howard Gardner, Professor at the Harvard Graduate School of Education, proposed in 1983 that intelligence is not one single ability. Each person has a unique mix of eight intelligences.

Intrapersonal

The ability to understand yourself: your feelings, strengths, goals and motivations, and to use that self-knowledge to plan your life.

Interpersonal

The ability to understand, communicate with, motivate and lead other people.

Logical-Mathematical

The ability to reason, calculate, find patterns and solve problems step by step.

Linguistic

The ability to use words well: reading, writing, speaking and listening.

Naturalistic

The ability to observe, recognise and classify things in nature and the environment.

Visual-Spatial

The ability to think in pictures, imagine, and understand space, shape and colour.

Bodily-Kinesthetic

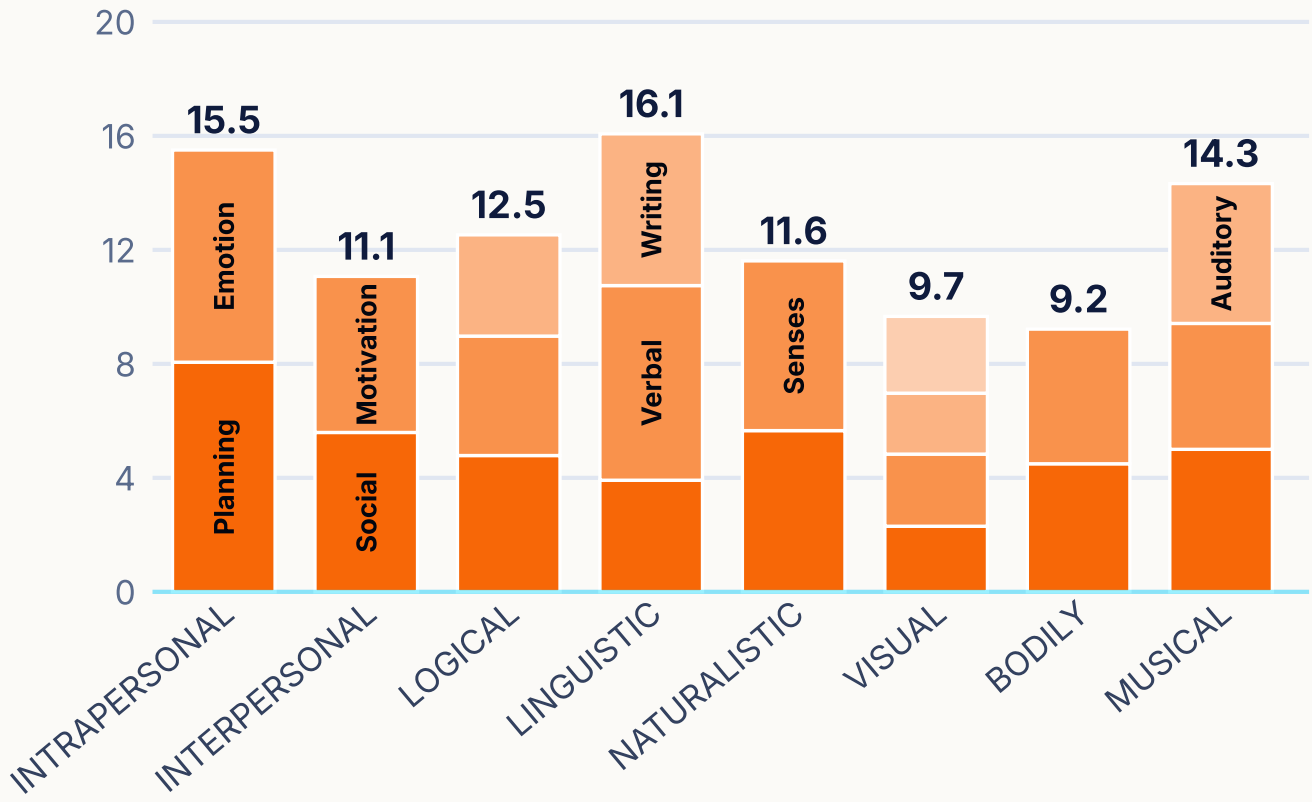
The ability to use the body and hands skilfully: movement, coordination and hands-on work.

Musical

The ability to sense rhythm, pitch, tone and the emotion in sound.

DISTRIBUTION

Where Demo's potential *lies*



Each bar is split into the abilities inside it.

READING THIS CHART

- The tallest bars are your dominant intelligences.
- Bars of similar height are equal potentials.
- Bars below half of the tallest bar are areas to develop.

INTELLIGENCE 02 / 08

Intrapersonal

RANK 2 OF 8

R1 · RIGHT THUMB

The ability to understand yourself: your feelings, strengths, goals and motivations, and to use that self-knowledge to plan your life.

ELEMENTS OF INTRAPERSONAL

Planning	52.0%
Emotion	48.0%

PEOPLE STRONG HERE ARE

Try this week · Pick one activity from this page and practise it for 15 minutes a day for one week.

INTELLIGENCE 02 / 08

Strengthen your Intrapersonal

Your Intrapersonal share **15.5%**

WAYS TO STRENGTHEN

1. Set aside quiet time to think or meditate
2. Read about different schools of philosophy
3. Keep a daily journal of thoughts, goals and feelings
4. Make a personal development plan
5. Review your day for 10 minutes every evening
6. Read biographies of great individuals
7. Teach yourself a new skill or language
8. Develop a hobby that sets you apart
9. Keep regular 'me time' for an activity you enjoy
10. Spend time with people who have a healthy sense of self

12-WEEK HABIT TRACKER · TICK EACH WEEK YOU PRACTISE

Habit 1	○	○	○	○	○	○	○	○	○	○	○	○
Habit 2	○	○	○	○	○	○	○	○	○	○	○	○

INTELLIGENCE 03 / 08

Musical

RANK 3 OF 8

L4 · LEFT RING

The ability to sense rhythm, pitch, tone and the emotion in sound.

ELEMENTS OF MUSICAL

Voice tone	34.9%
Auditory	34.3%
Processing	30.8%

PEOPLE STRONG HERE ARE

- Sensitive to sounds
- Good sense of rhythm
- Remembers tunes
- Emotionally expressive
- Learns well with music

RELATED CAREERS

- Musician
- Singer
- Composer
- Sound Engineer
- Music Teacher

INTELLIGENCE 03 / 08

Strengthen your Musical

Your Musical share **14.3%**

WAYS TO STRENGTHEN

1. Sing whenever you feel comfortable
2. Play 'name the tune' with friends
3. Build a collection of favourite music
4. Join a music group
5. Take formal lessons in one instrument
6. Listen to a new style of music each week
7. Learn simple melodies on a keyboard
8. Play background music while studying
9. Read about famous composers
10. Make up your own tunes

12-WEEK HABIT TRACKER · TICK EACH WEEK YOU PRACTISE

SENSES

Your sensing capability

Listen	23.0%
Smell	20.6%
See	19.6%
Taste	18.5%
Touch	18.3%

Taste	Your ability of judging things by tasting
Smell	Your ability of judging things by smelling
Touch	Your ability of judging things by touching
Listen	Your ability of judging things by listening
See	Your ability of judging things by seeing

USE YOUR TOP SENSES TO LEARN

- **Listen:** Read aloud, use recordings and discussions
- **Smell:** Study in a fresh, pleasant space; link memories to places

COGNITION

Your thought process

Auditory	25.6%
Action	22.4%
Visual	18.6%
Thinking	18.0%
Tactile	15.5%

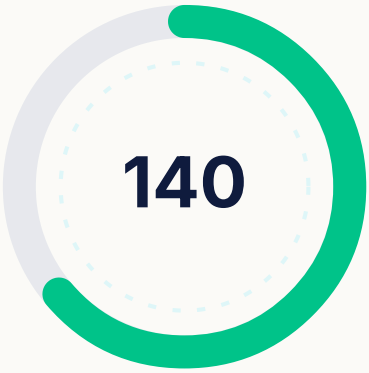
Action	Ability to plan and execute goals; deal with yourself and others
Thinking	Ability to apply logical and imaginative thinking
Tactile	Ability to use your body, hands and eye-hand coordination
Auditory	Ability to process information by listening and speaking
Visual	Ability to see, visualise and understand things

MAKE THE MOST OF IT

- **Auditory (strong):** Discuss, listen and explain topics aloud
- **Action (strong):** Turn plans into small daily actions
- **Visual:** Use mind maps, diagrams and colour
- **Thinking:** Use puzzles, debates and 'why/how' questions
- **Tactile (build):** Learn with movement, models and practice

CAPACITY

Total finger ridge count



TFRC

INBORN POTENTIAL

GOOD

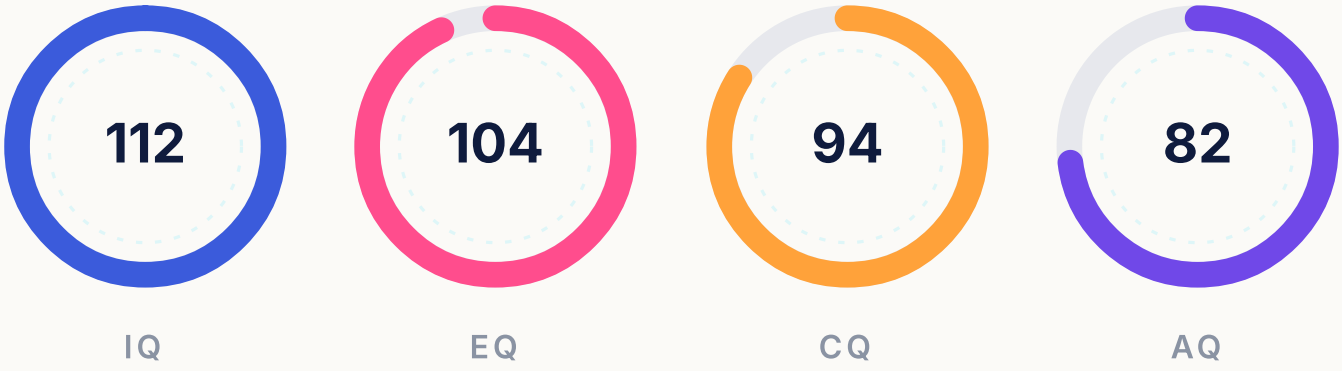
Learn from inspiration

0–60	Low	Need special learning styles
61–70	Average	Need step-by-step learning
71–90	Above average	Have the right expectations of yourself
91–140	**Good**	**Learn from inspiration**
141–180	Very good	Lead others and help them achieve
181–200	Excellent	Explore your hidden potential
201+	Outstanding	Can reach the height of success

TFRC reflects inborn learning capacity. It is not an IQ score. With the right stimulation, every brain keeps building new connections.

QUOTIENTS

IQ · EQ · CQ · AQ



INTELLIGENCE QUOTIENT

Logic, rational thinking and academic performance; learning numbers and grammar; problem solving.

Raise it: Solve puzzles, practise mental maths and read non-fiction.

EMOTIONAL QUOTIENT

Understanding your own and others' emotions; connecting with people; empathy and management.

Raise it: Name your feelings daily and practise active listening.

CREATIVITY QUOTIENT

Doing something different, better and new; out-of-the-box thinking.

Raise it: Try one new hobby or a different way of doing a routine task each week.

ADVERSITY QUOTIENT

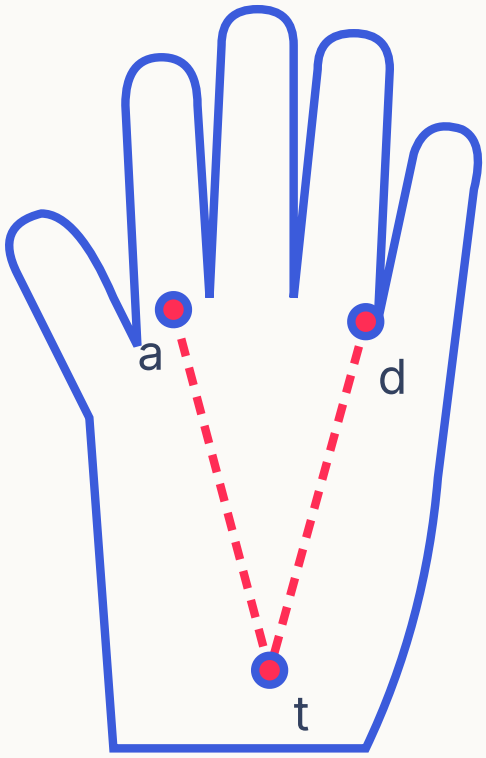
Handling difficult situations; mental strength; a 'don't give up' attitude.

Raise it: Take on small challenges and reflect on what you learnt from setbacks.

Compare the four quotients with each other. A high value does not mean "more intelligent"; it shows where your natural strength lies.

ATD ANGLE

What is the ATD angle?



The ATD angle is formed by joining three points on the palm: below the index finger (a), below the little finger (d) and near the wrist (t). It reflects the speed and coordination between the brain and the body.

Below 35°	Born athlete
35°–40°	Actively smart
41°–45°	Good learner
46°–50°	Step-by-step learner
Above 50°	Needs a patient plan

ATD

ATD angle & learning stability

LEFT PALM

RIGHT PALM

ATD 35°–40°

Actively smart

Good personal learning and coordination; sport works well as a hobby you can develop.

LEARNING SPEED & COORDINATION

Left palm		**Fast**
Right palm		**Good**

A lower ATD angle generally means faster learning and better body coordination.

PHYSICAL ACTIVITIES THAT SUIT YOU

Acting · Dance · Musical Instrument · Snooker

LEADERSHIP

How Demo *leads*

TASK ORIENTED

Driven by tasks, goals and targets. Strict and focused; one-way communication; believes in delegation.

RELATIONSHIP ORIENTED

Driven by people and emotions. Soft and caring; two-way communication; believes in participation.

WHAT IT MEANS FOR YOU

You lead by building relationships and teams. Practise setting clear goals and deadlines.

ROLES THAT FIT

- Class or team representative
- Event coordinator
- HR / people manager
- Counsellor or mentor

GROW AS A LEADER

- Set clear goals and deadlines
- Practise saying no politely
- Make decisions even when not everyone agrees

CAREER THEORY

Holland theory of career choice

Psychologist John L. Holland (1919–2008) showed that people do best in work environments that match their personality. He described six types, known as RIASEC.

R · Realistic

DOERS

Practical, hands-on; tools, machines, outdoors

I · Investigative

THINKERS

Observe, analyse, research

A · Artistic

CREATORS

Imaginative, original, expressive

S · Social

HELPERS

Teach, guide, care for people

E · Enterprising

PERSUADERS

Lead, influence, sell

C · Conventional

ORGANISERS

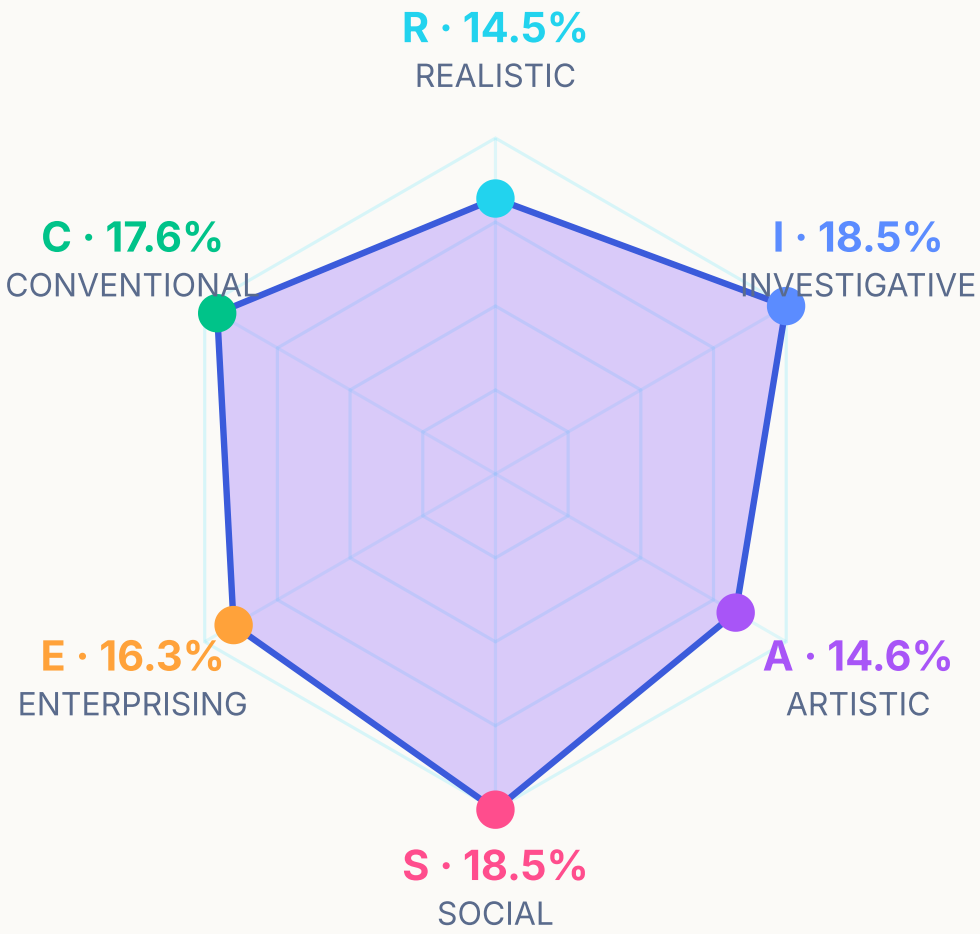
Data, detail, order

FOUR IDEAS

- People of the same type working together create an environment that fits them.
- People look for environments where they can use their skills.
- Matching your type to your work improves success and satisfaction.
- How you feel at work depends a lot on your environment.

RIASEC

What kind of work *excites Demo*



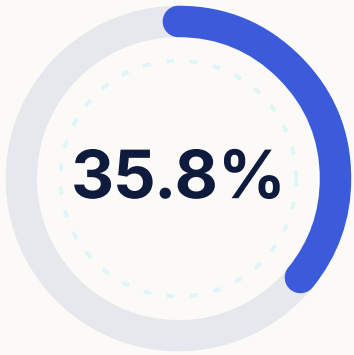
YOUR HOLLAND CODE

SIC

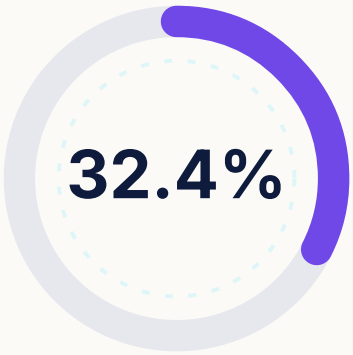
Social · Helpers	Teach, guide, care for people
Investigative · Thinkers	Observe, analyse, research
Conventional · Organisers	Data, detail, order

WORK STYLE

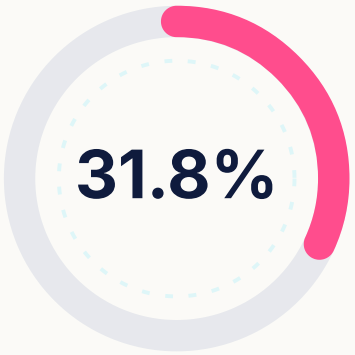
McKenzie work style



ANALYTIC



INTROSPECTIVE



INTERACTIVE

Analytic	Prefers facts, logic and systems
Introspective	Prefers ideas, reflection and imagination
Interactive	Prefers people, action and communication

ANALYTIC

- Learn with facts, data and step-by-step logic
- Suits research, analysis and technical roles

INTROSPECTIVE

- Learn with quiet reflection and imagination
- Suits design, writing and planning roles

INTERACTIVE

- Learn by discussing, teaching and doing
- Suits people-facing, team and leadership roles

Your strongest work style is **Analytic**. Choose roles and study methods that use it.

Content Creator / Video Producer	Design & Media · Start with: Storytelling, Video editing, Audience building	★★★★☆ High
Climate & Sustainability Consultant	Environment · Start with: Environmental science, ESG reporting, Communication	★★★★☆ Very high
Entrepreneur / Startup Founder	Business · Start with: Problem solving, Selling, Finance basics	★★★★☆ High
Social Media Manager	Business · Start with: Content planning, Community building, Analytics	★★★★☆ High

Growth outlook reflects the job market in 2025–26 and is reviewed every year. Stars use the same method as all other careers.

ACTIVITIES

Extra-curricular activities

TOP 1

Foreign Language

Uses your Linguistic

TOP 2

Singing

Uses your Musical & Linguistic

TOP 3

Acting

Uses your Linguistic & Gross motor

GETTING STARTED

- Try the top activity for 8 weeks before deciding.
- Pick one activity for fun and one for a skill you want to build.
- Lower-ranked activities can still be enjoyed; they may need more practice.

ACTION

Demo's *development plan*

FOR THE STUDENT & PARENTS

BUILD ON

Linguistic

Intrapersonal

Musical

DEVELOP

Bodily-Kinesthetic

Visual-Spatial

- Preferred stream: Commerce. Explore Human Services and Education & Training.
- Study the auditory way: attend classes, discussions and tutorials.
- Spend 20 minutes a day building Bodily-Kinesthetic.
- Meet one professional from each top career area before choosing.
- Use your Linguistic strength in clubs, projects and competitions.

GUIDANCE

Study & career guide

STUDY

- Attend classes, discussions and tutorials
- Find a note-taking study partner
- Revise within 24 hours of every class

CAREER

- Explore Human Services and Education & Training
- Talk to one professional in each area
- Do one internship or project before choosing

SKILLS

- Build Bodily-Kinesthetic: join a sports team
- Practise public speaking once a month
- Learn one digital skill this year

Remember · Encouragement works better than comparison. Celebrate small progress.

90 DAYS

Demo's next *90 days*

Discover

DAYS 1–30

- Try two activities for Bodily-Kinesthetic
- Start a auditory study method
- Write three goals for the next 90 days

Build

DAYS 31–60

- Practise your top strength, Linguistic, every week
- Track progress in a journal
- Meet a professional from your top career area

Review

DAYS 61–90

- Compare progress with your goals
- Keep what worked, drop what did not
- Book a follow-up session with your counsellor

COUNSELLOR

Counsellor's remarks

Demo is a steady, people-oriented learner who takes in information best by listening (auditory 42.9%) and expresses it well in words (linguistic 16.1%, the strongest intelligence).

Left and right brain are close to balanced (54.4% / 45.6%), so Demo can handle both structured and creative work.

Commerce (36.2%) and Science (34.0%) are almost level, and Investigative is joint-highest with Social in RIASEC (18.5%), so Science should not be ruled out before Class 10.

Social is the top RIASEC type and leadership is 60% relationship oriented: roles that involve guiding, teaching or helping people will feel natural.

Parents to encourage reading aloud, group discussion and one hands-on project each term, and to avoid comparing Demo with siblings or classmates.

AGREED GOALS

1	Read aloud for 20 minutes daily and summarise it in own words
2	Join the school debate or quiz club this term
3	Complete one hands-on science project before the term ends

GLOSSARY

Terms used in this report

DMIT
Dermatoglyphics Multiple Intelligence Test: study of fingerprint patterns to understand inborn potential.

Ridge count (RC)
Number of ridges between the core and the delta of a fingerprint.

TFRC
Total Finger Ridge Count: sum of the ridge counts of all ten fingers.

ATD angle
Angle formed on the palm by the triradii below the index finger, little finger and wrist.

Whorl / Loop / Arch
The three families of fingerprint patterns.

Multiple Intelligences
Howard Gardner's theory that people have several kinds of intelligence, not one.

DISC
Behaviour model: Dominance, Influence, Steadiness, Compliance.

RIASEC
Holland's six career-interest types: Realistic, Investigative, Artistic, Social, Enterprising, Conventional.

Quotients
IQ, EQ, CQ and AQ: relative strength in logic, emotions, creativity and handling adversity.

NEXT STEPS

Stay connected

- Book your one-to-one counselling session to discuss this report.
- Share the report with parents and teachers so everyone supports the same plan.
- Review your 90-day plan with the counsellor.
- Re-assess interests and goals every year; your fingerprints stay the same, but your skills keep growing.
